

NQP NOVA ROOFBAR 15

WARNING LIGHT BAR

PART NO. 21107

The **NQP NOVA ROOFBAR 15** is a low-profile LED light bar designed for service vehicles, recovery vehicles, construction equipment, and other professional applications. Featuring high-intensity LEDs and 17 selectable flash patterns, it provides effective warning signalling and high visibility in demanding working environments.

The durable construction, anti-scratch lens, and IP67 protection ensure reliable performance in all weather conditions, while the slim design allows for easy installation across a wide range of vehicle types.
